NYU Experimental Pathology Research Laboratory Acknowledgment and Authorship Policies

Dear Experimental Pathology Research Laboratory Users:

According to the NYULMC policy, it is mandatory that you acknowledge the Experimental Pathology Research Laboratory at the New York University Langone Medical Center in all publications and grant applications if you are using equipment, services, expertise and data generated at the Experimental Pathology Research Laboratory. Authorship should be considered when Core members are involved in significantly developing the experimental design or contribute to the publication content by advancing it to publishable form. Please send us the PDF file of your publications and let us know if the grant is awarded, this will enable us to demonstrate our involvement in the research of a large number of laboratories at the university, aiding the procurement of future equipment for the Core.

The NYU Cancer Institute Center Support Grant partially funds this Core. Please acknowledge the NYUCI Center Support Grant, "NIH/NCI 5 P30CA16087", on any publication resulting from the use of this Core.

Our Core remains committed to do our best to meet your service expectations. If you have any questions, please do not hesitate to contact me.

Sincerely,
Cynthia Loomis, M.D., Ph.D.

Director, Experimental Pathology Research Laboratory
Assistant Professor
NYU Langone Medical Center
